**Attachments:** 53771979-v1-Consent for Access Form (KAIC Only) - July 2020 Draft-JAF.pdf

Kris – thanks for the reply and the info. We would like to set up a monthly meeting with EPA, KAIC and Ecology to discuss ongoing activities and planning activities for work on both the SRC and the KAIC properties. I will ask Tom to coordinate directly with Brooks on those meetings, and will ensure that KAIC reps are invited and kept informed. I'll also work with KAIC's counsel (cc'd here) on access – we've already arranged for access for KAIC to access SRC property, so we assume that it wouldn't be an issue to establish reciprocal access.

Take care and stay well.

**Subject:** RE: Pollution Report #4 Former Kaiser Smelter - Field Operations - Weeks 4 & 5

Hi Ken,

I was able to talk to Brooks about the meetings referenced in the Pollution Report. Those meetings are specifically related to EPA oversight of KAIC's work under the settlement agreement, so it's not an open or general planning meeting that SRC could join. That being said, if SRC (Tom Briggs or others) do want to engage in planning meetings with EPA, KAIC, and Ecology, EPA would be happy to participate. I suggest Tom coordinate directly with Brooks if SRC does wish to set up any meetings.

With regard to accessing KAIC property, SRC will need to directly request access from KAIC. KAIC and EPA have an agreement on access in the settlement, but it does not extend to providing access for parties that are not undertaking or overseeing the cleanup.

Thanks,  
Kris

Kris – hope you are safe and well in these challenging times. The attached Field Operations report references weekly joint planning meetings between EPA, Ecology and KAIC. We would like to have SRC participate in those meetings as well, with Tom Briggs from Landau Associates (cc'd here) designated as our agent and point of contact. Can you please help us make arrangements for participation in those meetings?

Also, we'd like for Tom to have the opportunity to observe the ongoing stormwater detention pond work being performed by KAIC on the KAIC property. Can Tom reach out to Brooks directly to make the necessary arrangements?

Thanks.
